10/10/77

Dear Harold,

Here's the excpt. Note that at the top of page 1 the number was changed, but the old number remains at the top of all subsequent pages. I have a true copy of the excpt without the number change and without the LBJ Library stamp. I believe that the change in classification did not come until very late in LBJ's term (post-1967). There also must be a tape somewhere, probably in the LBJ Library too.

I'm really interested in Perry's receipt of this thing from Hawks. Please be sure to contact me before you question him.

Hope this will be of some good use in the spectro suit.

Best,
Lou

P.S. Do you think the Sibert-O'Neill receipt for 2 movies that you obtained and published is the same one referred to in Thomas' draft? If so, why?
